RECORDS AND ASSETS · SHAREPOINT, TEAMS AND VIVA CONNECTIONS

# EquipPoint for SharePoint

## Asset management that lives in SharePoint and Teams.

Scan a label with a phone camera and the asset opens in your SharePoint after sign-in. QR labels, check-out, stocktakes and inspections in your own SharePoint lists, for the Microsoft 365 account people already have.

14-day free trial | UK-built and supported | Register stays in your tenant

### WHAT IT IS

EquipPoint is SharePoint asset management and equipment tracking for Microsoft 365, made by APPS 365 LTD. The asset register lives in lists and libraries on a SharePoint site in your own tenant and works in Microsoft Teams: every asset gets a QR label that opens it in your SharePoint after Microsoft 365 sign-in, so people can check kit out and in, run stocktakes, record inspections and report faults from the label. One SharePoint Framework package holds a SharePoint web part (also a full-page app), a Teams tab and personal app (My kit) and a Viva Connections card, and the core runs with each person's own SharePoint access and asks for no Microsoft Graph consent. Every plan has unlimited users and assets.

### KEY FEATURES

## Everything you get

- **An asset register in SharePoint**
  Laptops, tablets, projectors, PE kit and tools, with custom fields, locations and a full history of every change, in lists on your own site.
- **QR labels and NFC tags**
  Print QR labels on A4 sheets or write NFC tags; a phone camera scan opens the asset in your SharePoint after Microsoft 365 sign-in.
- **Check-out and My kit**
  Check kit out to people, locations or other assets with due dates and a PDF receipt in your library; My kit in Teams shows what each person holds.
- **Stocktakes**
  Scan what is there, and the report shows what was found, missing or unexpected.
- **Inspections and faults**
  Scheduled PAT, LOLER, PUWER and other inspections with certificates, plus fault reports with a photo.
- **Exports for auditors and insurers**
  A school template with the DfE register fields, plus exports including an ISO 27001 A.5.9 inventory and a Cyber Essentials device list.

Listed on Microsoft Marketplace. Not affiliated with or endorsed by Microsoft.

## WHERE TEAMS USE IT

- IT asset management
- School and trust equipment registers
- Check-out and loans
- PAT and other inspections

## WHAT CHANGES FOR YOUR TEAM

- You always know who has what, where it is and when it is due back.
- The record gets updated standing next to the equipment.
- People use the Microsoft 365 account they already have.
- Helps evidence an up-to-date register for audits and renewals.

## MADE FOR

IT teams · Facilities managers · School business managers · Operations teams

## WHAT SETS IT APART

- Scan-first: phone camera, webcam, scanner or NFC
- Runs in SharePoint, Teams and Viva Connections
- Built for registers past 5,000 items
- Labels carry a random token, never the SharePoint item ID

## PRICING
