## — WHAT IT IS

GovernPoint is a SharePoint Online governance and Microsoft Copilot readiness analyzer, deployed as an SPFx web part. It scans your tenant using Microsoft Graph, scores libraries, lists and pages across six governance dimensions, flags oversharing and stale content, and offers one-click remediation. Analysis runs inside your Microsoft 365 boundary, and no Copilot licence is needed to use it.

## — KEY FEATURES

### Everything you get

- ✓ **Six-category governance scoring**  
A 0-100 score across content lifecycle, access and permissions, information architecture, duplication and sprawl, ownership, and licensing.

- ✓ **Copilot readiness assessment**  
Weighted scoring across discoverability, metadata, access and content sources, so you know where a site stands before Copilot surfaces it.

- ✓ **One-click remediation**  
Seven fixes including versioning, permission inheritance and search indexing, applied without leaving the page.

- ✓ **Role-based dashboards**  
Admins get detailed analytics; site owners get simplified, plain-English summaries.

- ✓ **Tenant-wide scanning**  
Parallel batch processing with results shown progressively, worst first.

- ✓ **AI agent inventory**  
Discovers the .agent files across your tenant, so you can see where agents live.
