Runs in your tenant

— WHAT IT IS

Image Maps was the first app APPS 365 shipped. A no-code web part lets you drop any image onto a page and paint clickable hotspots over it with a drag-and-drop editor. Each hotspot can open a page, document, link, popup, panel or script. Deploy the same map three ways: as a web part, a full page, or a Microsoft Teams tab.

— KEY FEATURES

Everything you get

- ✓ **Drag-and-drop hotspot editor**
Paint polygon, rectangle, ellipse, icon or connected-shape hotspots over any image. No code, no developers.

- ✓ **Rich shape and asset library**
Built-in SVG icons, Font Awesome, and 50 country, continent and world map SVGs.

- ✓ **Multi-floor carousel**
Stack floors or views with an auto-sliding carousel, ideal for building floor plans and site maps.

- ✓ **List-driven content**
Populate tooltips and hotspot content from SharePoint Lists, so maps stay current with no manual edits.

- ✓ **Advanced interactivity**
Mouse-over and click actions, panel and popup views, run-script-on-click and iframe embeds.

- ✓ **Responsive and accessible**
Zoom, touch support, keyboard navigation and alt text on every device.

— WHERE TEAMS USE IT

- ✓ Interactive office floor plans and site maps
- ✓ Geographic and regional navigation
- ✓ Org charts and process diagrams
- ✓ Visual document hubs and department maps

— WHAT CHANGES FOR YOUR TEAM

- ✓ People navigate large intranets faster and find resources first time.
- ✓ Pages look sharper and get more attention than a list of links.
- ✓ Build interactive navigation without a developer.
- ✓ Content stays current when it's driven from a SharePoint List.

— MADE FOR

Intranet admins	Site owners
Internal comms	Facilities and operations

— WHAT SETS IT APART

- ✓ Multi-floor auto-carousel for floor plans
- ✓ Built-in shape and map SVG library
- ✓ One map, three surfaces: web part, full page, Teams tab
- ✓ Script, iframe and panel interactivity
